1st WST 1993 – Programme

Adam Cichon
Termination orderings and interpretations

Fer-Jan de Vries
Currying preserves termination

Maria Ferreira
Eliminating dummy symbols in TRS's

Alfons Geser
On monotonic semantic path orderings and the Knuth-Bendix ordering

Isabelle Gnaedig
On typed termination

Bernhard Gramlich
Termination properties of non-orthogonal term rewriting systems

Dieter Hofbauer
Characterizing complexity classes via termination proofs

Richard Kennaway
An introduction to infinitary term rewriting

Pierre Lescanne
Termination of rewrite systems by elementary interpretations

Aart Middeldorp
Simple termination is difficult

Enno Ohlebusch
On the modularity of termination of term rewriting systems

Elizabeth Scott
Weights for total division orderings on strings

Joachim Steinbach
Examples and open Problems in termination

Elias Tahhan Bittar
Bounds on the lengths of derivations of orthogonal term rewriting systems

Andreas Weiermann
A simple characterization of the provable total number-theoretic functions of KP+

Hans Zantema
Termination of term rewriting by semantic labelling

Ursula Martin
Order types of orderings on strings and multisets
